Profile

MSc Artificial Intelligence student in the UK with experience in Flutter development, web development, and data analysis. Skilled in building cross-platform mobile applications, developing web solutions, and applying AI and machine learning concepts to solve real-world problems. Strong analytical, problem-solving, and communication skills with a passion for innovation and continuous learning. Seeking internship or part-time opportunities to contribute technical expertise while gaining industry experience in AI, software development, and data analytics.

Areas of Expertise

- | | | | |
|--|--|-------------------|-----------------------------|
| • Flutter & Dart Development | • Mobile App Development (Android & iOS) | • Web Development | • Git & Version Control |
| • Artificial Intelligence Fundamentals | • Data Analysis & Data Visualization | • Python | • SQL & Database Management |

Professional Experience

Associate Software Engineer, Techland IT Solutions, Hyderabad, India

Apr 2025 to Jan 2026

Flutter & Web Developer

- Developed cross-platform mobile applications using Flutter and Dart for Android and iOS.
- Built responsive and user-friendly websites using modern web technologies.
- Designed intuitive UI/UX interfaces to enhance user experience and engagement.
- Utilized GetX for state management, navigation, and dependency injection.
- Integrated RESTful APIs and performed API testing using Postman.
- Worked with Firebase services including Authentication, Firestore, FCM, and Storage.
- Managed source code using Git and GitHub for version control and collaboration.
- Published and maintained mobile applications on the Google Play Store, including the Temple City app.
- Collaborated with clients and teams to deliver scalable, high-quality software solutions.
- Performed debugging, testing, and performance optimization to ensure application reliability.

Software Development Engineer (SDE) Intern, Bluestock Fintech, Hyderabad, India

Jan 2026 to Feb 2026

- Contributed to the development of fintech applications focused on stock market and financial services solutions.
- Integrated third-party stock market APIs to retrieve real-time and historical financial data.
- Worked with financial and stock market datasets, performing data analysis and validation to support business insights and decision-making.
- Integrated and tested RESTful APIs to facilitate secure communication between applications and external services.
- Utilized Git and GitHub for version control, code collaboration, branch management, and deployment workflows.

Education

University Of Law, London , UK

Master of Science (MSc) in Artificial Intelligence for Business, Jun 2026 to Jul 2028

Sree Vidyanikethan Engineering College, Tirupati , India

Bachelor of Technology in Computer Science and Engineering (AI), Oct 2022 to Jul 2025

Sri Vasavi Engineering College, Tadepalligudem, India

Diploma in Mechanical Engineering, Jun 2019 to Jul 2022
